About me

As a first-year software engineering student with a strong motivation and skill set, I am deeply passionate about crafting innovative solutions to complex challenges.I am well equipped to contribute to cutting-edge software projects. My strong analytical and problem-solving skills, combined with excellent communication and teamwork abilities

Education

2023 — Software Engineering
Ecole Nationale d'ingénieurs de Carthage (ENICarthage) Tunis, TU, Tunisia

2020 — Preparatory cycle for engineering studies
Nabeul Preparatory Engineering Institute Nabeul

2020 — Baccalaureate in Mathematics
lycée pilote zaghoun zaghoun

projects

Personal Portfolio Development
Designed and developed a personal online portfolio to showcase my web development projects, enhance my professional visibility, and demonstrate my front-end programming skills. It's built with Html , CSS ,Javascript

Restaurant Web Application Development
I am developing a comprehensive restaurant web application utilizing HTML and CSS to provide an interactive and user-friendly interface.

Delivery Company Management Desktop Application
Engineered a comprehensive desktop application for a delivery company using C to optimize logistics and operations. The software facilitates real-time delivery tracking, and automated customer communication.

Cybercofee Management Desktop Application
Developed a robust desktop application for managing cybercafé operations using C++. The application features user management, real-time computer terminal monitoring, and automated billing systems.
